

First meeting of Douglas sewer board set

Douglas County Lake Tahoe Sewer Authority will meet for the first time on Oct. 11.

One of the board's first tasks will be to appoint a fifth member, who is supposed to represent the Stateline business community.

The four sitting members are county Commissioner Nancy McDermid, Round Hill General Improvement District trustee Wesley Rice, Kingsbury GID trustee Darya Vogt and Tahoe-Douglas Sewer District trustee Grant Thompson.

This board was created by the Nevada Legislature after the Douglas County Sewer District No. 1 was forced to disband because the former board violated the Nevada election and open meeting laws.
