

North Shore casinos rake in money in Nov.

November was a good month for North Lake Tahoe casinos, a lackluster month for South Shore venues and so-so for the whole state of Nevada.

North Shore revenue was up 18.9 percent compared to 2016 to \$1,859,371, Stateline was down 2.92 percent to \$15,510,510, and statewide it was down 2.3 percent to \$909,007,025.

Tourism should change the numbers for December.
