

# Participate in LTN's monthly book club

*Lake Tahoe News* has launched an online book club in the hopes of getting more people to read. It will also give people the opportunity to “talk” about the book via the comments. Questions will be asked and ideally a “dialogue” will follow much in the same way an in-person book club would work.

Anyone may comment, even pose your own questions.

On the first of each month a new book will be reviewed. The title of the next book will be included at the end of each review.

If you would like to review a book, please send us an email at [info@LakeTahoeNews.net](mailto:info@LakeTahoeNews.net) with “Book Review” in the subject in, the title and author of the book, and why you chose that book. We'll get back to you soon.

**Here is the review** for Jan. 1. It's about the founders of Airbnb.

The book to be reviewed for Feb. 1 is “What Unites Us” by Dan Rather and Elliot Kirschner.
