

Trees, history part of 2 library presentations

Friends of the South Lake Tahoe Library have scheduled two diverse events. Both are free and open to everyone.

The library is on Rufus Allen Boulevard.

The first is March 27 at 6pm with the Sugar Pine Foundation showing "The Seedling," a short film that explains the challenges white pines face and how this local organization aims to help. Attendees will meet the staff of the nonprofit and the filmmaker. Bring tree related questions and learn how to get involved in reforesting our local fire scars. Free and open to all.

The next event is April 14, 2pm with the Tuskegee Airmen history. Meet descendants of the original Tuskegee Airmen and hear their stories and learn historical facts about the famed "Red Tails," the first African-American fighter pilots of World War II.
