

DUI checkpoint Saturday on South Shore

The California Highway Patrol will be conducting a sobriety checkpoint on the South Shore on June 30 from 8pm-2am.

The sobriety checkpoint will be staffed by a team of CHP officers who will be controlling traffic, evaluating driver's sobriety, and hand out literature warning of the dangers of drinking and driving. Driver's license checks will be conducted and appropriate enforcement action will be taken.

Approximately two hours prior to the implementation of the checkpoint, officers will reveal the exact location.
