

Soroptimist International of South Lake Tahoe COMMUNITY SERVICE GRANTS

The purpose of the Soroptimist organization is service, principally to its community, but also to society in general. Soroptimist International of South Lake Tahoe is especially dedicated to the advancement and enhancement of women, and the issues and concerns in women's lives. Along with this goal, the club has a long-standing commitment to the youth of our community.

Well known for its annual fundraiser, "An Evening of Food & Wine Tasting", Soroptimist International of South Lake Tahoe is also known for its community service, including substantial financial support of worthy community projects and programs.

The purpose of our grant process is to provide a mechanism whereby club funds are channeled to those areas of most need. Special consideration is given to creative projects and programs that have potential for a lasting impact on the community and which benefit a large number of women and/or children.
